

PURE FIJI

SPA TREATMENT MENU

Our story

For centuries South Pacific Islanders have used a balanced blend of pure coconut and exotic drift seed oils infused with flower extracts to nourish, hydrate and beautify skin and hair. Pure Fiji began with a vision to bring the best of these traditional blends to spas around the globe and as a result, became pioneers in the use of virgin coconut oil commercially.

Founded by mother-daughter duo Gaëtane and Andrée Austin in 1999, from humble beginnings in the family kitchen with 5 dedicated staff wrapping hand-made soaps and bottling body oil. Pure Fiji now operates a cosmetic manufacturing laboratory which produces a full skin and body care line and employs over 200 people across 2 factories in Fiji. Beyond the factory gates, in small villages across a symbiotic relationship with a network of farmers and harvesters from local villages who are a vital part of the production process.

This ability to provide jobs to the community and change lives is central to the company's belief that "Where there is a hand, there is a heart and soul".

Pure Fiji is a family business with wild Fijian ingredients collected by hand with the spirit of the Fijian people and the results are evident in the positive impact our products have on your skin and the community that sustains our business.
